## Tariff DRRV 6002

### **ITEM 5 CANCELTATION**

FT DRRV 6002 cancels FT DRRV 6001 in its entirety.

This Tariff does not affect any other DRRV tariffs including Tariff DRRV 8000-Series.

**This Tariff includes changes that may be considered increases in rates and charges, and changes in service terms.**

### **ITEM 10 EXPLANATION OF ABBREVIATIONS AND REFERENCE MARKS**

DRRV – Dover and Rockaway River Railroad Company, LLC

NS – Norfolk Southern Corporation

AAR – Association of American Railroads

### **ITEM 15 DEFINITIONS**

**ACTUAL PLACEMENT** – Actual placement is made when a railcar is placed in position for loading or unloading on a customer track, leased track, team track, transload track or other point previously designated by the customer. Railcars placed on customer tracks, leased tracks, team tracks or transload tracks at the request of the customer will be considered actually placed without further notification.

**ASSIGNMENT** – A transfer of rights to another that gives the recipient—the assignee—the rights that the owner or holder—the assignor—had prior to the transfer.

**ASSIGNOR** – The party who has assigned property or a task, duty, responsibility or shipment.

**ASSIGNEE** – The party to whom property or a task, duty, responsibility or shipment has been assigned.

**CLOSED GATE** – A facility where the customer orders in railcars specifically by railcar initial and number, or where track capacity is insufficient to hold all arriving railcars.

**CONSIGNEE** – The party to whom a shipment is consigned and/or the party entitled to receive the shipment.

**CONSIGNOR** – The party in whose name railcars are ordered (directed) and/or the party who furnishes DRRV forwarding directions.

**CONSTRUCTIVE PLACEMENT** – When a railcar consigned or ordered (directed) to a customer track, leased track, team track or transload track cannot be actually placed on the track to which it was ordered (directed) because of a condition attributable to the customer, such a railcar will be held at an available hold point as determined by DRRV, and notification shall be sent or given to the customer that the railcar is being held and that DRRV is unable to effect actual placement.

## Tariff DRRV 6002

**CONTINUOUS MOVEMENT** – A movement between DRRV's tracks and the customer track, leased track, team track or transload track, or other place where railcars are received or delivered without any delay or any suspension or break in time or continuity of the movement, or any interruption, or interference, due to any circumstances or condition for which the customer is directly responsible.

The operations named below in (I) and (II), where performed by DRRV as necessary incidents to the placement and removal of railcars moving at published carload rates, shall not be deemed:

1. To break the "continuous movements";
  2. To be in excess of the Ordinary Operating Convenience" of DRRV;
  3. To be an "interruption or interference" caused by the customer";
  4. To be a "circumstance or condition for which the customer is directly responsible" as those terms are used in this Tariff.
- I. The removal and replacement of railcars empty, partly loaded or fully loaded when incidental to the placement or removal of other railcars; and/or
- II. Operations performed in providing a service for which a separate charge is authorized in this or any other DRRV tariff.

**CUSTOMER** – The person or entity (shipper, receiver, consignor, consignee or agent) responsible for freight shipments in railcars handled by DRRV, and for payment of any applicable charges named herein. Specifically with respect to demurrage charges, "customer" shall mean any person or entity receiving railcars from DRRV for loading or unloading.

**CUSTOMER TRACK** – A track outside of DRRV's owned or operated right-of-way, and owned or leased by a customer where DRRV does not own either the rails, ties, roadbed or right-of-way. Two or more parties may use the track jointly when the customer, prior to such joint use, has furnished written notification to DRRV.

**DISPOSITION** – Information, including forwarding instructions or release, which allows the release of a railcar from the customer to DRRV.

**FIRST PLACEMENT** – When railcars are first placed for loading, unloading or storage upon customer tracks, leased tracks, team tracks or transload tracks.

**FORWARDING INSTRUCTIONS** – A bill of lading or other suitable order, given to DRRV and containing all of the necessary information to transport the shipment to its destination, which authorizes:

1. The immediate delivery of a railcar to a connecting line for further movement; or
2. The immediate forwarding of a railcar to a consignee at another location at the same station or to a consignee at another destination on the DRRV.

**HAZARDOUS MATERIALS** – A substance or material that poses an unreasonable risk to health, safety, and property when transported in commerce, and has designated as hazardous under section 5103 of Federal hazardous materials transportation law (49 U.S.C. 5103). The term includes hazardous substances, hazardous wastes, marine pollutants, elevated temperature materials, materials designated as hazardous in the Hazardous Materials Table (see 49 CFR 172.101), and materials that meet the defining criteria for hazard classes and divisions in 49 CFR 173.

**HOLD POINT** – An NS, DRRV, customer track, leased track, team track or transload track on which a

## Tariff DRRV 6002

railcar is held prior to first placement to the customer.

**INTRA-PLANT SWITCHING** – A switching movement from one customer track to another customer track within the same customer plant or facility.

**INTRA-STATION SWITCHING** – A switching movement (other than intra-plant) from one customer track, lease track, team track or transload track to another customer track, lease track, team track or transload track within the limits of a single rail station served by DRRV as defined in **Tariff DRRV 8001 Item 135**, the terms of which are incorporated by reference herein.

**LEASED TRACK** – Any trackage located on property that is owned or operated by DRRV, and is leased to a customer under a written agreement.

**LOADED RAILCAR** – A railcar that is completely or partially loaded.

**LOADING** – The complete, or partial, loading, of a railcar within the confines of the same customer plant or facility, or on the same customer track, lease track, team track or transload track. Loading must be completed in conformity with AAR loading and clearance rules including the furnishing of forwarding instruction.

**LOCAL SWITCHING** – A switching movement from a location within one rail station served by DRRV to a location within a different rail station served by DRRV as defined by **Tariff DRRV 8001 Item 135**.

**NOTIFICATION** – Message given to the parties entitled to receive notification in accordance with the means outlined by **Tariff DRRV 8001 Item 155**, the terms of which are incorporated by reference herein, that a railcar is available for placement, loading, unloading, or is now otherwise affected by demurrage rules.

**OPEN GATE** – A customer for whom all railcars can be placed on arrival without regard to railcar initial and number or other placement instructions.

**ORDINARY OPERATING CONVENIENCE** – The time selected by DRRV when it is most advantageous to DRRV in relation to its coordinated and harmonious switching activities in a particular station. Ordinarily it constitutes only one (1) switch per day except when additional switches are made by DRRV in its own interest, as distinguished from the customer's individual interest. Movements to, from or within a customer track, lease track, team track or transload track at other times at the request of the customer or to meet the requirements of the customer's industrial operations are not at DRRV's ordinary operating convenience.

**PLASTIC** – Commodities designated with the federal shipping code (that is, STCC code) series 28211, which includes, but not by way of limitation, plastic pellets or resins.

**PRIVATE RAILCAR** – Any railcar not bearing railroad reporting marks and not controlled by a railroad.

**PROTECTIVE SERVICE** – Monitoring a railcar with operating refrigeration or heating unit to ensure that the refrigeration or heating unit is properly functioning.

## Tariff DRRV 6002

**RAILROAD-CONTROLLED RAILCAR** – Any railcar bearing railroad or TTX reporting marks.

**RECONSIGNMENT** – A change in the name of the consignor, consignee and/or change in delivery to a customer track, lease track, team track or transload track on DRRV.

**RELOAD** – Process that occurs when a shipment must be transferred from one railcar to another.

**SPECIAL FREIGHT TRAIN OR SWITCHING SERVICE** – Special Freight Train Service or Switching Service is the movement of a train in other than normal freight train or switching service.

**SWITCHING** – The movement of railcars from one track to another track or changing the order or relative position of railcars on a track.

**TEAM TRACK** – Any track located on property that is owned or operated by DRRV, and is designated by DRRV as open to customers and the general public for loading or unloading of railcars under written agreement.

**TIME** – Local time in the State of New Jersey, USA, as expressed in units of a 24-hour clock.

**TIME RETURN & DELAY REPORT** – Report required under 49 CFR 228 that records the arrival, departure and duration of all stops made by a train.

**TRANSLOAD** – Process that occurs when a shipment must be transferred from one mode of transportation to another (i.e. from a truck to railcar).

**TRANSLOAD TRACK** – Any track located on property that is owned or operated by DRRV, and that is used by customers to transload product to or from railcars under written agreement.

**UNLOADING** – The complete unloading and notification from the customer that a railcar is empty, suitable for reloading and release, and available to DRRV for pickup.

## Tariff DRRV 6002

### **ITEM 20 HOLIDAYS**

Whenever a reference is made to "holidays" it shall mean only the days listed below:

New Year's Day  
President's Day  
Good Friday  
Memorial Day  
Independence Day  
Labor Day  
Thanksgiving Day  
Day after Thanksgiving  
Christmas Eve Day  
Christmas Day

## **DEMURRAGE RULES AND REGULATIONS**

### **ITEM 105 DEMURRAGE REGULATIONS**

Demurrage is a fee charged for the extended use of railroad-controlled railcars and private railcars. These fees are intended to ensure that railcars are loaded, unloaded, and released quickly, so that they can be made available for the next shipment and so that the tracks can remain fluid to handle traffic.

Demurrage provisions in this tariff will not apply when demurrage rules are provided in contracts or other private agreements.

Demurrage applies to railroad-controlled railcars that have been delivered to a customer and are waiting to be loaded or unloaded, as well as railroad-controlled railcars that are constructively placed at a hold point.

Demurrage applies to private railcars that have been constructively placed at a hold point.

## Tariff DRRV 6002

### **ITEM 110 DEMURRAGE START AND STOP TIMES**

Following actual or constructive placement, whichever comes first:

1. Demurrage charges applicable to a railcar will start upon the expiration of “Free time” as explained in **Item 115** of this Tariff; and
2. Demurrage charges for railroad-controlled railcars will stop when DRRV has received notification in accordance with the provisions of **Tariff DRRV 8001 Item 155** that the railcar is released loaded or empty (whichever applies to the situation) by the customer, and is available for pickup by DRRV.
3. Demurrage charges for private railcars constructively placed will stop when DRRV has received notification in accordance with the provisions of **Tariff DRRV 8001 Item 155** that the railcar is ordered into the customer from a hold point.

### **ITEM 115 FREE TIME**

Free time for a railroad-controlled railcar will be:

- Loading – 1 Day (24 hours)
- Unloading – 2 Days (48 hours)

There is no free time for a private railcar constructively placed.

If a railcar is placed between 0001 and 0700, free time begins at 0001 on the same day the railcar is placed (i.e. the day of placement is the first free time day).

If a railcar is placed after 0700, free time begins the first 0001 after the railcar is placed (i.e. the day following placement is the first free time day).

If free time begins on or encompasses either Saturday, Sunday, or Holidays those days will not be counted for the calculation of the duration of free time.

### **ITEM 120 STANDARD DEMURRAGE CHARGES**

Following the expiration of free time, demurrage charges on railroad-controlled railcars and private railcars will accrue at a rate of **\$150** per day.

Demurrage charges will not be pro-rated, so fractional charges will result in an entire day being charged.

Applicable charges will accrue on all Saturdays, Sundays and Holidays following the day charges begin to accrue.

## Tariff DRRV 6002

### ITEM 125

#### OTHER THAN TEAM TRACKS

On railcars loading or unloading on other than a team track, time shall be computed in accordance with **Item 110** and **Item 115** of this Tariff.

### ITEM 130

#### TEAM TRACKS

On railcars loading or unloading on a team track, time shall be computed in accordance with **Item 110** and **Item 115** of this Tariff, as adjusted under **Note 130A**.

**Note 130A** – When delivery of railcars to a team track cannot be made on account of more railcars on hand than such tracks will accommodate, such railcars can be held at an available hold point and time computed from the first 0001 after notice of constructive placement is sent or given to the customer, provided one or more of such customer's railcars are placed or offered for placement each time the team track is switched. The provisions of this note are not applicable if, prior to the first 0001, exclusive of Saturdays, Sundays, or Holidays, after constructive notice is sent or given, the customer requests delivery at a different team track where space is available. In such case the alternate delivery shall be made.

### ITEM 140

#### TERMS OF PAYMENT

Payment for demurrage charges is due within fifteen (15) days of customer's receipt of an invoice from DRRV. Interest equivalent to the lesser of twelve (12%) per year, or the maximum allowable rate under New Jersey law, will be assess for late payment, calculated from the date payment is due through the date payment is received, and based on a year of 360 days.
